#### TOWN WARRANT

# THE STATE OF NEW HAMPSHIRE [L.S.]

To the inhabitants of the Town of Barnstead in the County of Belknap in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Town Hall in said Barnstead on Tuesday, the 13th day of March, next at nine of the clock in the forenoon, to act upon the following subjects:

- 1. To choose all necessary Town Officers for the year ensuing.
- 2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same, as recommended by the Budget.
- 3. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes.
- 4. To see if the Town will vote to allow a discount on property taxes paid on or before the first Saturday of August next.
- 5. To see if the Town will vote to authorize the Selectmen to buy Liability Insurance on Town Labor, and pay the same out of the Highway Dept.
- 6. To see if the Town will vote to accept the following Trust Fund: \$200.00, will of Charles L. Ham, Lot in So. Barnstead Cemetery.

- 7. To see if the Town will vote to pay the Moderator \$10.00, and the Ballot Clerks \$5.00 per meeting.
- 8. To transact any other business which may legally come before said meeting.

Given under our hands and seal, this 27th day of January, in the year of our Lord nineteen hundred and fifty one.

JOHN O. EMERSON, JOHN M. SARGENT, JOSEPH H. COTTON, Selectmen of Barnstead.

A true copy of Warrant—Attest:

JOHN O. EMERSON, JOHN M. SARGENT, JOSEPH H. COTTON, Selectmen of Barnstead.

## IN MEMORIAM

## WHEREAS:

We, the members of the School Board of Barnstead, in view of the loss we have sustained by the decease of our departed member and friend, Ray Thompson, and of the still heavier loss sustained by those who were nearest and dearest to him; therefore be it

## RESOLVED,

That it is but a just tribute to the memory of the departed to say that, in regretting his removal from our midst, we mourn for one who was, in every way, worthy of our respect and regard.

## RESOLVED,

That we sincerely condole with the family of the deceased on the dispensation with which it has pleased Divine Providence to afflict them and commend them for consolation to Him who orders all things for the best.

## RESOLVED.

That this heartfelt testimonial of our sympathy and sorrow be forwarded to the wife of our departed member and be spread upon the records of this board.

> WILLIAM H. JENISCH, JOHN L. COTTON, DAVID M. PERKINS.

> > School Board.

CORAN K. DAVIS,
School Board Member Emeritus.
GEORGE E. HOLLOWAY, JR.
Superintendent of Schools.

## B. REPORT of the SUPERINTENDENT

## 1. Problems and Conditions General to the Union

Less than fifty years ago, the atmosphere which surrounds our earth was merely so much air to be breathed. Today, man talks through it by telephone and radio; he sends lightning-like messages through it by telegraph; he sends pictures through it by television; and he flies himself and his goods through it at a speed undreamed of even a few years ago.

The American home, during these same fifty years, has been equipped with conveniences such as automatic heat and air conditioning, running water, electricity, automatic washing machines, ironers, electric stoves, refrigerators, vacuum cleaners, dishwashers, disposal units and many others, and the average family, an automobile.

In these same years this country has grown from a struggling young nation to a World Power.

To what do we owe these great accomplishments?

The United States Chamber of Commerce raised this question some several years ago and then set out to find the answer. They studied the natural resources, the climate, all other factors common to each nation and when they were finished, they concluded:

That education is a far more powerful instrument than most people have been willing to admit.

That the degree of education and technical competence determines the economic welfare of the various countries of the world.

That natural resources do not determine the income of a country.

That the degree of education and technical skill is the factor that does determine the level of income in any country.

Our forefathers believed this and set out to establish in America the first free schools in the World. While fighting the Revolutionary War, they continued to develop public schools and found time and money to establish some thirteen colonial colleges. Our country and our schools have grown far beyond the expectations of our illustrious forebears.

Today, schools face two problems: We must prepare our children for the new world yet to be molded and we must find ways to pay for these schools as did those who have gone before us.

Our schools must be set up to prepare young folks for college and innumerable vocations, some very new to all of us, and others as old as agriculture, but in the new scientific manner. In the "good old days" schools did not need to prepare children for the vocations as most everyone who was not going to college followed in his father's trade and learned it at home or with some friend or neighbor. Schools therefore, taught the children to read, write and do simple arithmetic (not the kind required on the income tax form today or the kind required to read the budget of our federal government.) Schools must still do these same things but many more.

Children growing in this new way of life must know the world as well as they once knew their town. They must understand the many great scientific developments, and learn, we hope, to use them for good, rather than for destruction. If anyone doubts that our children are learning these things, he should engage them in conversation about atomic energy, jet engines, Guadalcanal, Estonia, the latest automobile of any make, or the United Nations.

Teaching school under these conditions is a far cry from what it was in former years, particularly before World War 1. The amount of material to be covered has increased, especially in the scientific fields and in Geography and History and Government. Content has changed and continues to change. The sincere and conscientious teacher must continue to study and increase her knowledge. She knows that she must do her utmost to develop fully the potentialities of each and every child, for in our complicated society, the "dunce" is a liability to be paid off eventually by all of us.

America has prized its educational system, invested in it, believed in it because it promised to bring to real life the American dream of the good society. There is, however, another side to this picture. While we believe in our schools and put such trust in them, the proportion of our national income devoted to education has declined in the last twenty years and \$5 billion spent on public education compares rather poorly with the \$8 billion spent on liquor, or the \$9 billion spent on cigarettes and the \$19 billion spent on automobiles.

Providing money for our schools has become a vexing problem. To meet the needs of our present educational program, more money is required. Today, if you go to buy a car or a pound of hamburg and the price is twice what it was in 1939, you are not surprised, for you know that the value of the dollar has gone down just about that same amount, but it is hard to transfer this same kind of thinking to the tax dollar spent on education.

The other afternoon I went to the store to purchase an article, and the gentleman behind the counter

announced that the price was  $35\phi$ , as much as he regretted it. He knew, as I did, that only a week ago the price had been  $25\phi$  and, I might add, twenty-five years ago it would have been  $15\phi$ . All he could do was pass it along to me. Unfortunately, when it comes to schools and paying for them, it isn't that easy. When it comes time to pay taxes, we still think in terms of the "old" dollars.

As our country has grown, more people have moved away from the farm and the real estate tax, from which we still get our money for schools in this state, is no longer a fair basis for measuring a person's ability to pay. Once, if a man had a fifty acre farm and thirty head of cattle and another man had a twenty-five acre farm and fifteen head of cattle, it was easy to say that one man was able to pay twice what the other paid. Today, we have three houses all alike. In one, lives a retired person with an income based on a dollar which has lost half of its value, in the next lives a family making \$6,000, and in the third house live three families, all working and making \$10,000. It is easy to realize that to tax each of these property units the same is unfair, yet that is what is done. federal government long ago sought to get its taxes from other sources but in New Hampshire the real estate tax is still our method for collecting the money for our schools.

Much as we may not like to admit it, another reason we are having a time getting money for our schools is that people are more willing to spend their money for other things. We are for the schools, we believe in them, but we want radios, television sets, autos, alcoholic beverages, cosmetics, tobacco and fine clothes first.

All but one of the districts in this Union are doing

as much or slightly more for their schools as the average district in New Hampshire is doing but, unfortunately, all of our districts are like the Red Queen in Looking Glass Land who had to run hard to stay in the same place. Our problem in the last five years has been a difficult one because we have had to catch up with old shortages which are responsible for our present over-crowding, our unsafe, badly kept and inadequate facilities, as well as teacher shortages. Our districts can do nothing but ask for more money so long as the dollar continues to lose its value and an ever increasing number of children enter our schools.

At least three districts in this union must face building programs in the next three years. By now, we are all familiar with the old story, in time of war, we cannot build because costs are going up and you cannot get material, and in time of peace we cannot build because, while prices are going down, so is the amount of money that people are making. Since the turn of the century, we have been in one or the other of these positions and the building program has lagged behind the need for replacements and enlargements.

You have been interested in our work, you have attended meetings, made studies and supported our program. You must help us to retain good teachers who have a vision of the future needs of our country and who will strive to guide your children rather than to assign them pages in a book. You must continue to maintain the property which we have, and prepare to build those classrooms which will be needed so badly in the next few years.

The task is not an easy one but I feel sure that we all still have hopes and ambitions for our children and our country, and will find a way.

\*If some dramatic incident could shock the American people to an awareness of public education, they would re-act as unitedly as they did at Pearl Harbor. A parade of embarrassing statistics, however, fails to accomplish this purpose. The growing inadequacy of our public school system is creeping up on every community.

Year by year, community by community, we are watching one of two great strongholds of democracy be weakened. For the strength and backbone of our democracy is an informed electorate. We Americans achieve this strength through widespread public education—education which prepares the citizenry for active participation, and simultaneously assures their liberty.

For education makes a people easy to lead, but difficult to drive; easy to govern, but impossible to enslave.

I am not a horse-and-buggy reactionary, advocating a return to the simple country education which I knew in my boyhood. Although the effort for education for a country boy in Missouri had great merits in character building, and certain rewards in accomplishment through hardship, such conditions are out of date. Future generations of American citizens can be prepared for the important role they must play, if we make the most of the modern educational resources for our boys and girls.

For the past 10 years, our preoccupation with saving this nation, and its way of life from aggression has frequently left the grade schools and high schools of our communities behind. While the school-age population increased by leaps and bounds, schoolroom facilities and adequate teaching staffs were left behind.

\*Taken from an address delivered by General Omar N. Bradley, Chairman Joint Chiefs of Staff, delivered before the National Citizens' Commission for Public Schools, January 17, 1950.

## 2. The Local Situation

Barnstead does more than the average community in the way of finances and, as a result, you have received State Aid. Unfortunately, you have a large enrollment for the the size of the town and the lowest amount of taxable property behind each pupil of any district in this Union.

The school property which you have is in good condition.

Despite certain difficulties of last year, your children did well in their Standard Achievement tests and are doing well in high school.

I am sure we are all pleased to have Mr. Mattsson in charge of the schools this year, and to welcome Mrs. Durette as the teacher of Grade 1 through 4 in Center Barnstead.

All four of your teachers are taking a course in Alton each Tuesday. Mrs. Alden and Mrs. Cotton are also taking a course, Mondays, in Concord.

Your Parent-Teacher Association is showing a steady growth and has had several very fine meetings.

The special musical programs in the fall and at Christmas gave your children an opportunity to show their abilities in other ways and offered everyone who attended much pleasure. Mrs. Grau and the teachers are to be commended on these affairs.

The Christmas decorations at both schools were another fine contribution to your community.

Your understanding and interest has been appreciated by your superintendent and your school board.

## PART V. AUXILIARY ACTIVITIES AND SPECIAL REPORTS

## (a) Report of School Health Work

To the Townspeople, School Board and Superintendent of Schools of Barnstead:

The following is my second annual report of the school health work of Barnstead.

There were a few cases of mumps scattered through the school year but the largest part of the epidemic occurred during the snmmer vacation. Early in the fall we had a very few cases of chicken pox but the common cold probably caused the majority of absent children, and even this has not been excessive through the school year.

A medical inspection of all children was made by Dr. George Quinn, of Farmington, in January, 1950. This included physical examination, blood pressure, urine test for albumin and sugar. The results of the examination were very satisfactory and I have contacted parents where corrective defects were found.

Beginning this year, the program for medical inspections as planned will include the pupils of grades I, III, VI and VIII and all new pupils. This will allow each child to have four physicals by a physician while in the Barnstead Schools. Dr. Quinn will come to Barnstead for these examinations in the near future.

The routine hearing tests were made during the year using the audiometer with satisfactory results as no child was found to have a serious impairment of hearing.

The eye examinations have been made with the

new Massachusetts vision testing machine which is a very adequate and improved method of finding the children needing visual corrections. Parents have been seen or notified where vision defects were found. Some remedial corrections have already been made while a few others have been arranged.

A program is now in full swing under the Federal Security Agency, Public Health Service, which is giving every child an opportunity to have his or her teeth cleaned and four sodium fluoride treatments which reduces the amount of new dental decay. Nearly every pupil is having these treatments. However, I am glad to find a few pupils who had received the fluoride treatments at their own dentist while having their dental work completed this year.

Classroom visits and classroom inspections have been made whenever necessary for routine health work or to give individual advice to pupils regarding personal hygiene or whatever seemed important at the moment. Home visits have also been made regarding ill children or to interview parents.

Clinic visits have been made with children as needed.

The following is a statistical report of the school nursing work during the year of 1949-1950:

Number of pupils examined,	90
Pupils weighed,	180
Pupils measured,	90
Visits to schools,	160
Visits to homes,	88
Assisting Doctor with examinations,	90
Classroom inspections,	900
Individual inspections,	150
Vision test,	140

Hearing test,	90
Official interviews,	18
Transported to clinics or doctors,	12

In closing, I wish to express my appreciation to the teachers and all others who have assisted me with the School Health Program in any way during the year. I am always glad to see or hear from parents at any time regarding their children or pertaining to the health program of the school.

Respectfully submitted.

(Mrs.) VENITA HARDY, R. N., School Nurse.

## PART VI. SCHOOL CALENDAR FOR 1951-1952

1951

(The spring vacation as shown above is subject to change if conditions of roads necessitate it.)

(Easter Sunday is April 13, 1952.)

## PART VII. WARRANT FOR SCHOOL DISTRICT MEETING

## THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of Barnstead, N. H., qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 16th day of March, 1951, at 8:00 o'clock in the evening to act upon the following subjects:

- 1. To choose a Moderator for the coming year.
- 2. To choose a Clerk for the ensuing year.
- 3. To choose a Member of the School Board for the ensuing three years.
- 4. To choose a Member of the School Board for the ensuing year.
  - 5. To choose a Treasurer for the ensuing year.
- 6. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the district.
- 7. To hear the reports of Agents, Auditors, Committees, or officers, heretofore chosen, and pass any vote relating thereto.
- 8. To choose Agents, Auditors, and Committees, in relation to any subject embraced in this Warrant.
- 9. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and

for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

10. To transact any other business that may legally come before said meeting.

Given under our hands at said Barnstead, N. H. this 16th day of February 1951.

JOHN L. COTTON, WILLIAM JENISCH, DAVID PERKINS.

School Board.

A true copy of Warrant—Attest:

JOHN L. COTTON, WILLIAM JENISCH, DAVID PERKINS.

School Board.
